

CLEAR21 Combines **BEAUTY**
and **FINESSE** with
PERFORMANCE and
PRECISION

THE CLEAR21 DIFFERENCE

Braces have changed a lot in the last 15 years. If you wore braces, you likely wore older technology that used elastics to connect the wire to the bracket. The older elastic systems created uncomfortable friction after each appointment and had other challenges including: difficulty cleaning, tooth removal, and longer treatment times.

Clear21 uses the latest in clear orthodontic innovation, blending beautifully with your teeth for near **invisible aesthetics**. Its advanced technology secures the bracket to the wire using a frictionless sliding door. The good news for you and your child, is this leads to **faster treatment times, exceptional comfort**, and the most **beautiful smiles**. It really is the perfect choice for the perfect smile.

CONFIDENCE YOU CAN SEE. BRACES YOU CAN'T.

Smile with the Best

CREATING SELFIE-SMILES

Virtually invisible at social distances, Clear21 aesthetic braces have many advantages over traditional braces and aligners. The Clear21 system combines rubber band-less braces with an advanced archwire system resulting in wide, beautiful 12 tooth smiles.

Clear21 incorporates the best of traditional clear braces and invisible aligners to deliver a discrete treatment experience with results that go beyond straight teeth, allowing you to confidently live your life while your teeth are being aligned. These exceptionally clear braces are appropriate for nearly every type of orthodontic need, and work continuously throughout treatment. Whether you're at work or at play, Clear21 delivers your ideal smile with no interruption to your treatment or active lifestyle.

CLEAR21

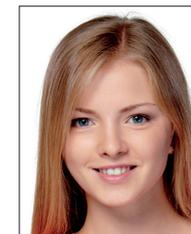

CLEAR COMFORT, CLEAR RESULTS

With Clear21's rubber band-less door, gone are the days of painful wire tightening. This feature lends itself to improved hygiene since plaque has less of an opportunity to accumulate. Designed to be more discrete and resistant to staining and discoloration throughout treatment, **people may not even realize your wearing braces!**

The Clear21's patient friendly design has no sharp edges and is specially designed to move teeth **FASTER** and with **LESS force** lending itself to a more comfortable experience.
